

## Mineable Oil Sands Reporting Enhancement

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
AB	May 28, 2026		Initial Release

**Audience:** Alberta Mineable Oil Sands Operators

**Purpose:** Effective June 4<sup>th</sup>, 2026, beginning with the January 2026 production month, mineable oil sands operators who have received approval from the Alberta Energy Regulator (AER) to deliver and receive oilsands ore (Petrinex product code: Oilsands) between mineable oil sands facilities can now report the transfers of this product.

**Background:** Prior to this enhancement operators were limited to reporting Oilsands Mined and Plant Processed volumes, along with the Assay %. Transfers of the product Oilsands between facilities were not permitted.

**Action Required:** Beginning with the January 2026 production month, operators with AER approval to transfer the product Oilsands between facilities can report these movements by recording a Receipt (REC) and a Disposition (DISP), including both quantity and the Assay %.

To support accurate and aligned reporting, an informational line marked as **(i)** will display from the corresponding entry from the other reporting facility ID once it has been submitted and will not be included in the facility balance calculation.
